MOST DEFINITELY

5. Please write a short Testimonial about your sedation experience?

Why in the world didn't I do this sooner!!  
Oh my goodness, this was the best dental experience  
ever (yeah, I know that sounds weird) ~~and~~ I am  
so excited to be able to say, for the first time  
in years, that I have NO cavities. Because  
of the wonderful staff, I always felt  
at ease. The sedation process was  
awesome. I seriously can't wait to get  
more work done.

Thanks  
Dr Boyle 😊

The whole experience was so much better than I expected. There was no pain what so ever and I don't remember very much of the dental work. I am glad that I made the call to them. Thanks to all of you at Balle Family Dentistry,

For someone like me who has an extremely high  
gag reflex and a general fear of the dentist,  
sedation dentistry is the answer.

It is so wonderful to wake up and remember  
nothing of all the dental work that was done  
in a single visit.

The doctors and staff were very nice. They kept  
me calm and comfortable. I have very little memory  
of the operation.

*I wish to thank you for your wonderful treatment that started when I walked into the office. Such kindness and gentle attention to my dental problems I cannot believe it all happened at all! I had no bleeding or pain at all! I don't even remember crossing the Ohio River 2x!! I even ate pancakes on the way home, 80 miles!! Thank you Dr. Bogle and your assistants. Connie was so gentle and kind on my first trip! Thank you, thank you!*

I had a lot of extensive work done involving crowns and veneers. I did not feel any pain at all during my sedation. I was concerned because I was having some old crowns taken off, but I did not even feel the removal of my previous dental crowns. Sedation dentistry is definitely the way to go.
