

Make It Easy With Sedation

Dr. Charles Bohle & Dr. John Mahan

Here at Bohle Family Dentistry we fully understand the art of Sedation Dentistry as well as gentle, caring, and quality dental treatment. Dr. Charles Bohle and Dr. John Mahan specialize in treating patients with the following conditions:

- * High fear
- * Traumatic dental experiences
- * Difficulty getting numb
- * Sensitive teeth
- * Complex dental problems
- * Limited time to complete dental care

There is no reason to be afraid or embarrassed by your teeth. Dr. Bohle and Dr. Mahan understand your anxiety and can help eliminate these problems for you with Sedation Dentistry. We offer both Oral Sedation and IV Sedation Dentistry.

Sedation Dentistry

For patients with dental anxiety Sedation Dentistry is a dream come true. Dental anxiety is a hidden phobia, like many people, you may be embarrassed to admit your fears and even more afraid to confront them. Worse yet, you may have never known that Sedation Dentistry was an option. Not Anymore! Sedation Dentistry is the answer to a dream come true.

Once you've experienced Sedation Dentistry with Dr. Bohle or Dr. Mahan, you'll probably never be afraid to go to the dentist again. You'll be sedated just enough to be unaware of the treatments, as if you were relaxing. Our specially trained team will monitor you continually throughout the appointment. We can accomplish extensive amounts of dentistry at one time, you will have little or no memory of the experience. Imagine being able to smile with confidence and chew your food without pain. No wonder so many patients say:

"Thank you, Dr. Bohle and Dr. Mahan,
Sedation Dentistry changed my life."
